

## ADVICE ON QUANTUM

Whether your client has an Order for costs made in their favour or against them – it is imperative that you make some early assessment of how much the client is likely to pay/recover for those costs.

Our experienced consultants are able to provide an advice on the likely quantum of such costs on the basis of what might be allowed by the Assessing Registrar/Taxing Officer of the Court or Court Appointed Costs Assessor.

### Features of our service:

- Experienced Consultant who is a Court Appointed Costs Assessor, Solicitor, and Legal Costs Consultant who has regularly appeared before the Assessing Registrar/Taxing Officer in the Courts
- Review and consideration of your file, costs statement/itemised account and objections (to determine likely quantum)
- Fixed fee (quoted upfront)
- Assistance with formulating Formal Offer of Settlement (pursuant to Court Rules) (where appropriate)
- Assistance with settlement negotiations (where required)
